OUR YOUTH have God-given yearnings: for community characterized by unconditional love and acceptance; for ecstatic experiences that lift them out of the regrets and anxieties of daily life; for constructive ways of reflecting on existential questions; and for guidance on the ways of life that lead to authentic human flourishing. How can we learn to be the leaders who our kids will trust to walk with them on this path?

The very survival of our particular Christian traditions, not to mention the fulfillment of our Christian mission, demands that we attend urgently and passionately to the Christian formation of our young. For our young people to be the future of the church, we must fully welcome adolescents into the present of the church as well. This requires that we reflect deeply and act urgently on the theological foundations, the cultural contexts, and the best practices of exemplary youth ministries. This year the free YMI Lunch and Lecture Series continues with a series of lectures focused on the principal elements of youth ministries that transform lives and help establish the foundations of "a future with hope." We invite you to join the conversation as we listen and learn from one another.
